FROM THE PRESIDENT

This Report is being written, not as an Annual Report because most of you know what the club has been involved in over the last year, and if you don't then you only have to look up the minutes in your magazines to find out. I want to try and use this space to look at the future, rather than the past.

Having written this, a comment is in order reviewing the last year so we can see the direction we should take this year. It seems to me that for the last year we have been running on autopilot. This comes down to my responsibility that we did not hold any Committee meetings in the last 12 months, consequently our monthly meetings just happened with no real planning, but hoping some would turn up to make the meetings worth while. Thankfully the attendances were satisfactory, although I am sure more interest would have been engendered if some variety had been introduced.

In thinking of the future, I wonder if we should be considering a slight change of direction for the Club. I have to say I joined for the technical aspect. Our cars are ageing, parts are becoming harder to get and we need to pool our resources and knowledge to keep our cars in a satisfactory condition. I believe the Club does this very well, and has done for the time I have been in it. The thing is, how many times can we write, for example, on the different electronic distributors that can be modified and fitted. This is all still needed, but most of the technical stuff has been done to death, although still needing to keep up with new developments and member's discoveries. What is there that Jilden can put in the magazine that has not already been said before? For those who are newer to the Club, these reprints are very helpful and I have to say, I am quite happy rereading those I have seen before as a refresher. This diatribe has not been to put down the magazine, but to show the need for a deviation in direction, while still encompassing what we have been doing.

With two new members on the committee this year, (welcome to Darren Holt as our new Secretary and David Newman as a non office bearing member), I would like to think some new innovations may be forth coming. I think Graham as our outgoing secretary, who we give a vote of thanks to for his efforts over the last years, has opened up a relatively unexplored area in recent years with the suggestion of the need for a more social focus for our Club. David kick started this by organising a run to Gumeracha the other Saturday morning, followed by lunch at the hotel, which proved to be quite successful, with eleven turning up for the event. This magazine will be advertising the breakfast and observing the Bay to Birdwood Run organised by Graham. Geoff and Chris have offered to oversee the October event.

I am hoping to have a Committee meeting within the next few weeks to discuss this direction and come up with further suggestions which will help with the implementing of these ideas. We are very open to any ideas you may have and would welcome the input you can give. I am contactable by the means listed in the front of this mag.

Yes I am excited about the future of our Club and can see it being a vital part in each of our lives as we give ourselves to make it the best we possibly can.

Wayne.

David Newman's run to Gumeracha

...
Wrecking Day at Jilden's place: Andrew Lee reversing the "chop top", the donor car which Alan Baker gave to the club. The roof was cut off for metal to make Andrew's stretch limo. Andrew could do little more than sit, as he had just wrenched his ankle. Graham Gurr and I removed the engine, trans and power steering. There remains the diff and parts such as the lower control arms to remove. Anybody volunteering?
