The opinions expressed on this magazine are not necessary those of the committee, except where stated.

Next Meeting to be held Tuesday 4 April 2017

At

John Armstrong's
6 Panoram Drive
Athelstone

PRESIDENTS RAMBLINGS

Here we are again into another New Year and according to the Chinese calendar, 2017 is the Year of the Fire Rooster. They say that this year people will be more polite and less stubborn but they will have a tendency to complicate things. Sounds like a normal year to me.

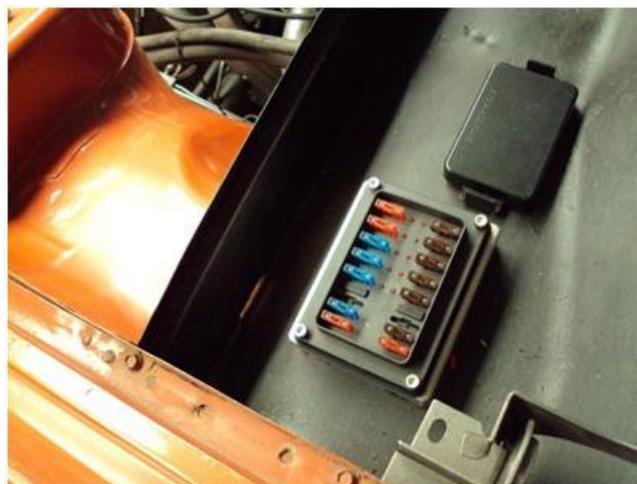

We hopefully will have some changes in the Historic Registration Scheme this year which will enable those of us in the Club with slightly non original cars to get them on the road under the limited 90 day registration scheme. These are the principles of revision to the scheme:-

- *Allow vehicle, modified from their original design, to enter the scheme. This change will provide flexibility to allow owners to improve the ride, handling and safety of these classic vehicles, as well as cosmetic enhancements. The registration scheme will no longer dictate the types of modifications permitted. Merely remove this requirement altogether.*
- *Move away from a fixed cut-off date of 1979 to a rolling 30 year vehicle age for eligibility to enter the scheme, for both right hand and left hand drive vehicles.*
- *Make changes to the Code of Practice to decrease the necessity for motoring clubs to undertake vehicle inspections, reducing the administrative burden of the scheme. This would remove the need for both initial inspections upon scheme entry and all 3 yearly inspections. However, in all cases, there will remain the ability for the Registrar or motoring clubs to request vehicle inspections on an as-needed basis. This will enable clubs to uphold their constitutional values.*
- *Remove the need for annual statutory declarations.*
- *Reduce limitations which ban left-hand drive vehicles with safety improvements, such as updated braking systems. This will allow modifications to LHD vehicles and will treat them the same as RHD vehicles currently on the road.*
- *Not introduce a registration component for the fees paid for vehicles to enter the scheme. It is expected the fees will remain consistent with the current \$90 annual cost which does not include a registration component but covers Compulsory Third Party insurance, the Emergency and Lifetime Support levies and other administrative charges. These fees are generally reviewed in July each year.*

I have given feedback to the Department of Transport and Infrastructure to let them know of our general acceptance to the changes. I guess all we can do now is wait and see.

Back on the home front we have been doing a little house maintenance to tidy up the neglect of leaving the house to go caravanning for 5 months. I have even got in the

shed and tried to find out where I was up to with the Sherman restoration. Continuing on the “tidy up the wiring” process took a bit of time and studying previously scribbled notes but I think I am back on track. The fuse box that was formerly in the engine bay left hand side is now neatly in the plenum where the windscreen washer tank was with not a wire in site, which leads to the next problem of where to fit a washer tank and pump. This is the joys of doing this stuff yourself, creating your own problems and solving them as well.

The old before and after shot
More next time.....Nigel

CLUB CALENDER

MEETINGS HELD BI-MONTHLY

April 4 General Meeting at 6 Panorama Drive Athelstone

June 6 General Meeting at TBA

Federation of Historic Motor Clubs website for member's club events www.fhmc.or.au including Swap Meets
