SHARE THE PASSION

28th November 2009

With the 27th March fast approaching, we felt it was time to update you on the upcoming Brookton Old Time Motor Show. Our theme is 'Muscle Cars', however, as with previous years all vintage vehicles are welcome – cars, trucks, chainsaws and bikes included! We will once again be welcoming back the fantastic array of vehicles and machinery, out for all to see in the Roadwise Grand Parade. There will be Shearing demonstrations, Aerobatics, Plane rides and the Local Fire Brigade mock rescue. Not forgetting the family, we have some fantastic family interest stalls along with a variety of children's entertainment, including a Scitech interactive science display, once again, something for everyone—a day out for all.

Our registration pages on the website are open so please fill these out and register your club, or just as individuals if you prefer. (www.otms.org.au) We are again welcoming camping on the oval, we have two bands playing Saturday, one starting late Saturday afternoon, Bridging the Gap and then a Classic Rock band, Men and Their Sheds will continue into the evening.

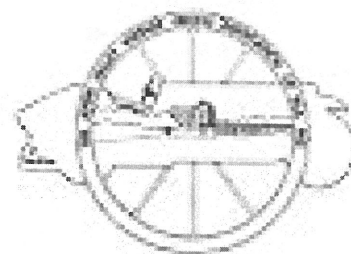

The entrance fee for the day is \$12.00 per adult and \$5 for 10 to 17 year olds, 9 and under are free. All proceeds from the day are donated back into the local community, your previous support has led to us raising much needed funds for our local St John Ambulance, local School and to the local Historical Society just to name a few!

We look forward to welcoming you on the day, please do not hesitate in contacting either Brad or myself on the above numbers, or by email if you require any further information.

Regards

Suzanne Turner
Secretary

A new Collectible & Classic Car magazine

Retroautos

First issue available in newsagents during February/March 2010.

Retroautos is a bi-monthly, full colour magazine celebrating classic and collectible automobiles and their owners.

Retroautos is for those who are passionate about owning, restoring, driving, showing, racing, fixing, cruising-in and escaping into the world of classic and collectible automobiles.

Retroautos will not be restricted to cars. Trucks, race cars and other forms of motor transport will feature, as long as they are classic and/or collectible!

Contribute to *Retroautos*!!

With this media release we are calling for those individuals and car clubs who are interested in contributing articles, information and photographs to ***Retroautos***. We are encouraging classic car clubs to become actively involved.

www.retroautos.com.au

Editor in Chief of ***Retroautos*** is Dennis Newlyn. The Publisher is a company owned by David Burrell. Both Dennis and David are long-time classic car owners.

Additional information available from David Burrell, contact:

info1@retroautos.com.au
Phone: 0407 770 409

Escape into the collectible and classic car world of *Retroautos*.

Bold as Brass ??

She's Bold alright !!

The start of a new life for a "Bold as Brass" 6cyl Deluxe"

Its taken me more than twelve years to get the old girl done up a bit. She was in pretty good shape when we bought her from an old bloke in collie in 1989? and we won a few club trophies. Jim Fair, the first owner bought the car as his re-

irement present to himself in 1974, he only drove around Collie on short trips so the 80,000 klms on the clock are original. Jims drive-way down the side of his house had a bit of a kink in it with a solid gate post on one side so by the time his wife sold us the car it had had a few dents and scratches fixed on the front wing, the only other damage was a bit of rust in the guard just behind the front wheel on the passengers side.

By1997 the motor had got a bit smoky and rattley so I decided to do the car up a bit. While I had the motor out of the body I thought it would be a good idea to spend some of the Trade-Bart dollars I had accumulated on a re-spray including the engine bay. I took the car to a spray shop (I think it was called Action Panel and Paint) just off Barrington St because the owner was a Trade-Bart member as well. He had the car for nigh on 18 months and only got it finished then because I got a bit upset with him.

I had rebuilt the P76 motor and was working on the old motor-home I had bought, getting it ready for our big trip round Oz, I wanted to have the P76 finished so I could store it while we were away, I got the motor back in but never fired it up, also I still had all the other bits and pieces to put back on.

Over the next few years we had our two year holiday and I got back into working for a living. In 2007 we got serious about selling our house because we were advised by a friend "in the know" that there was going to be a big economic crash and house prices would plummet, by now the poor old yellow P76 was showing signs of not being looked after too well with the dreaded brown cancer appearing all over the bodywork, the salt air environment of Safety Bay is not too good for body work.

I was away Matt decided to try and get the yellow P76 finished - so with Cynthia's help with finances he set about getting things done, he soon found

that he needed lots of help with the mechanics side of things. The car had been stored at Dennis's when we sold the house and Adam was very willing to give Matt a hand with all things mechanical. Between them they got the motor running, most of the bits and pieces put back and a set of mag wheels with brand new tyres fitted and Matt got Barry Nelson to install a new brake master cylinder etc and get the brakes working properly, Barry also installed

new cartridges into the front shocks and new bushes and boots to the steering. Matt's next job was to get the car on club concessional license. I got back home a little bit too soon for Matt as he wasn't able to get the car licensed but that didn't spoil the surprise when I went round his house and he threw the keys to me and told me to drive it out of his carport, that really was a real beaut surprise.

By the time this story goes to press the car will be on club concession and the rusty bits on the body will be touched up just to make the car presentable.

There is still a bit to do on the car but now I can drive it to club meetings and events. Over the next few months Matt and I will finish putting all the bits back, give the body a complete re-spray and tidy up the interior. The old girl will once again be as "Bold as Brass".

A whole heap of thanks to Matt for getting the old girl back on the road and on concessional license. Thanks to the P club members who assisted Matt it made his goal that much easier to achieve.

A special thanks to Adam who worked his magical mechanical genius on the car and got it running sweetly and to Dennis for storing the car for all those months.

Andy Renn

Thanks Matt you're the best son a parent

BUSSELTON MOTORFEST 2009

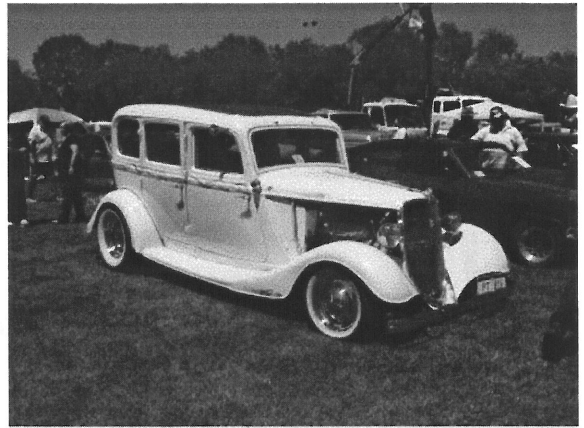

A few weekends ago the club attended the Busseltom Motorfest. This is a fantastic show and you see many cars which we don't get to see in Perth. They are all beautifully maintained and there seem to be a high number of country car clubs who attend.

Brett and I made the trip down from Perth on the Friday and stayed with relatives for the weekend, Adam Woodward and his girlfriend stayed down in Busselton, and Tim McGarr made the trip down for the day. We met up with country members Lyn and Riley Bradley so we had four cars on display.

Not surprising there were a high proportion of Holdens and Fords but lots of other cars were there too, lots of hot Rods American muscle and even a Tank.

The Day is always successful and the weather was great. Hopefully we can make it an annual event and try for a bigger showing next year.

Lianne Shea
